4.87

Fermentation temperature

18°C

Vinification

20% in barrique, 80% in stainless steel tanks

Alcohol level

12.5%

Production

14.000 bottles

Bottling

March 2025

Last but not least, the "newborn" wine from La Magia is made entirely from Vermentino grapes and produced in a dry style. Matured in steel vats and new oak barrels in order to enhance its organoleptic properties. This Vermentino shines in its straw bright yellow lemon color with light greenish reflections. With hints of white flowers, simple stone fruit and tropical fruit flavour. It shows notes of blossom, cedar, lemon, acacia, peach, pineapple, honey, white pepper, toast, candy, gooseberry, wet stone, sage, grass and wild flowers.

On the palate, this refreshing and medium body dry wine has high acidity with a subtle sweetness on the finish and fresh almond essence. Drink now but has potential.
